

VF E-Support

Edge Support For Non-Right Angled Pavers

We make the difference.
The Elmich Difference.

VF E-Support

VF E-Support enables flexible paving layouts without the need for support brackets fastened to the perimeter wall. The VF E-Support is used with VF Joist Adaptor on VersiJack® Pedestals and E-Support Spacer Tabs to support odd-shaped or narrow pavers along the edge of a paver layout that has non-right angled corners along its perimeter wall.

Technical Specifications

VF E-Support

Material Aluminium
Joist size 1000 (L) x 140 (W) x 25 (H) mm

E-Support Spacer Tab

Material PP
Spacer Tab thickness 3 / 4 / 5 / 6 / 8 mm

The Elmich security hologram ensures authenticity of the products.
