

# TurfPave® Markers

TurfPave® Markers are push-fitted into any cell on TurfPave® XD with the flexibility to design different patterns and configuration. The Markers serve as traffic guides or road markers to delineate parking limits, and restrict encroachment into designated emergency zones. TurfPave® Markers are raised for visibility and tapered to prevent trip hazards.

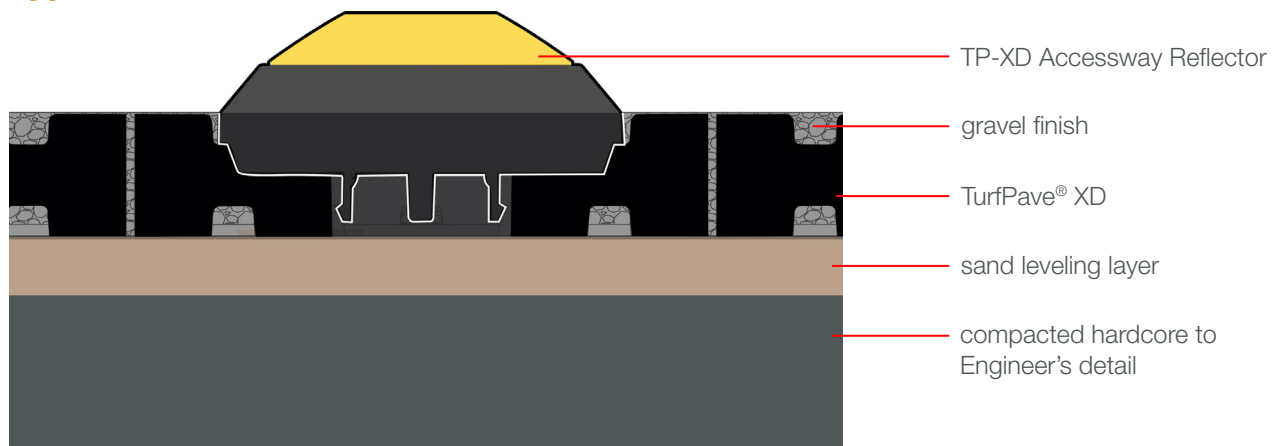

## TP-XD Accessway Reflector

TP-XD Accessway Reflector is used to demarcate fire engine accessways and driving lanes for vehicles. It houses a 100 x 100 mm road reflector that conforms to SCDF<sup>1</sup> guidelines and is durable and tamper-resistant.
